UHG Reshade 2022 NVE

How to install ?

1. Download my reshade archive and extract the preset files from the archive to your GTA5 main/installation folder, where the GTA5.exe file is located.

2. Start the game, open the Reshade menu by clicking 'Home' button on your keyboard, Finish the Tutorial by clicking Continue or just Skip it, then click on the long bar on the top of the Reshade menu and there Select a file of my presets to activate it.

3. Hope you'll like. Enjoy!
